Enterprise Email Assistant

Intelligent Email Security & Compliance Platform

Introducing the Multi-Agent Team Email Assistant

In today's fast-paced digital world, managing emails efficiently is more critical than ever. Our Multi-Agent Team Email Assistant is designed to revolutionize the way you handle your inbox. This innovative tool leverages the power of AI to streamline your email management and enhance productivity.

Key Features:

Weekly Meeting Organization: Automatically organizes and schedules your weekly meetings, ensuring you never miss an important discussion.

Scam/Phishing Email Detection: Identifies and flags suspicious emails to protect you and your team from potential threats.

Smart Reply Suggestions: Offers three tailored reply options for your emails, saving you time and effort.

Compliance & Financial Advice Analysis: Runs in-depth analyses using compliance and financial advice agents to help you navigate complex email communications with confidence. With the Multi-Agent Team Email Assistant, you can focus on what truly matters while leaving the tedious and time-consuming tasks to your AI-powered assistant.

↗ Enterprise Impact: The Numbers

Saving 10 minutes per employee per day transforms productivity

10 min

SAVED PER EMPLOYEE DAILY
Email triage & analysis

833

HOURS SAVED DAILY
For 5,000 employees
